Claims 1, 25-28 and 37-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support for a composition with only w-3 or a mixture of w-3 and polysorbate in a ratio of 3:7. The specification shows a ratio of orange oil or essential oil to polysorbate of 3:7 in example 2. Applicant argues that one may substitute any of the active ingredients disclosed in the specification for w-3 fatty acids. Applicant urges that the examples that include other active ingredients, like orange oil or essential oil provide support for the ratio of w-3 to polysorbate that is in the claims. This has been considered but is not persuasive. Examples 1, 2, 3, 4B, 6 all state that if a different polysorbate is used, the quantity of polysorbate and active ingredient must be changed to obtain a clear concentrate. The claims do not even specify the use of a particular polysorbate. One would not expect the cloudy concentrates to be in a micelle form. There is no support in the specification for a concentrate of w-3 fatty acids and polysorbate in the ratio

of 3:7; 2:5 or 1:6 that is in micelle and clear form. There is also no support in the specification for a concentrate of w-3 fatty acids and polysorbate 80 or polysorbate 20 in a ratio of 3:7 that is in micelle and clear form.

It is not seen that any and all animal fats with w-3 fatty acids would form clear micelles with polysorbate. An amendment to claim 37 setting forth the particular w-3 fatty acid composition of the animal fat, as disclosed in the specification at the top of page 4, would overcome the rejection of claim 37.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the

mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
